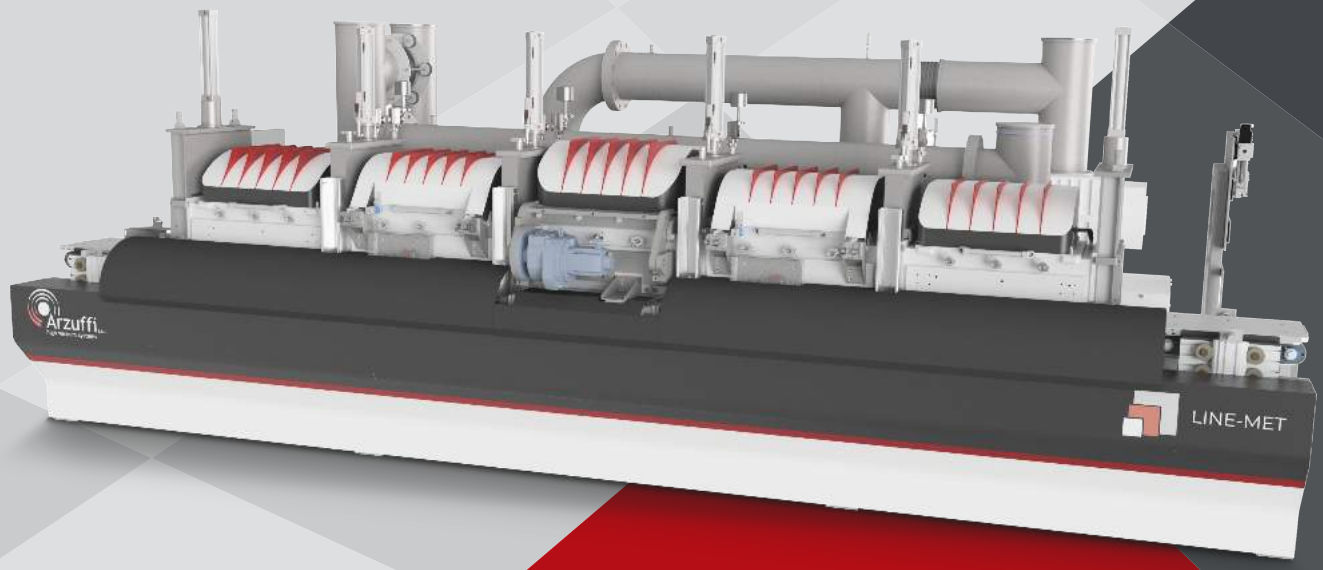
ITALIAN INNOVATION WORLDWIDE EXCELLENCE

LINE-MET

Fully Automated Equipment



www.arzuffisrl.it

MADE IN ITALY

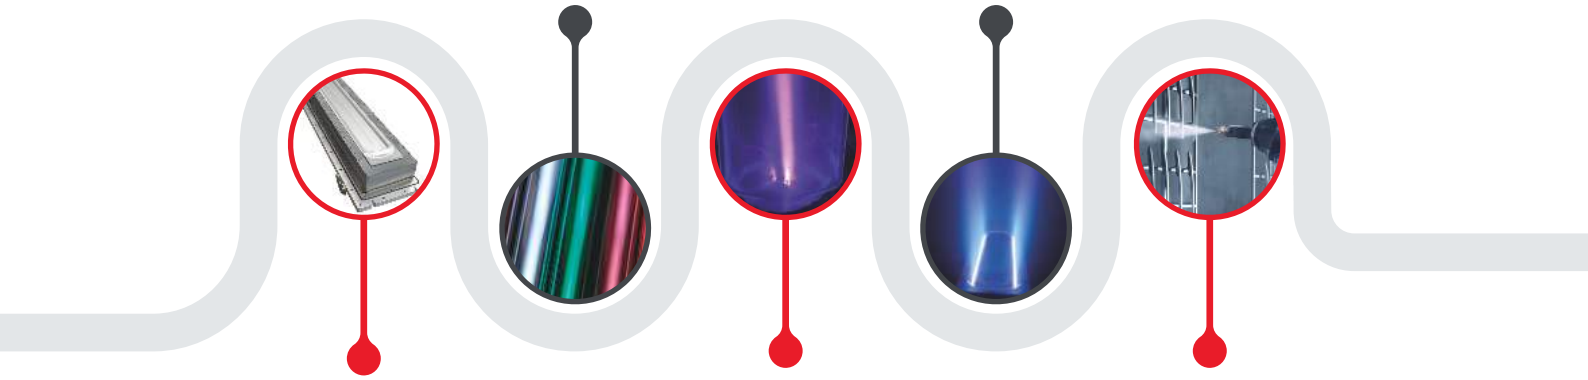
LINE-MET

Line-Met is a family of fully automated equipment creates to eliminate the machine fixtures with its costs, reduce the rejected pieces, increase the quality and most important, reduce the operator's labor cost.
Our machines are build in order to have:

- Easy maintenance
- Compact layout
- Low current consumption
- High reliability
- Fast cycle
- Easy human machine interface

Line-Met has a modular design and can be customized as the customer needs

OUR PROCESSES



SPUTTERING
High rate deposition and best homogeneity, able to coat with different metal and alloy

REACTIVE SPUTTERING
The answer to the color needs

PLASMA POLYMERIZATION
High uniformity protection layer

PLASMA ETCHING
High plasma density for best adhesion

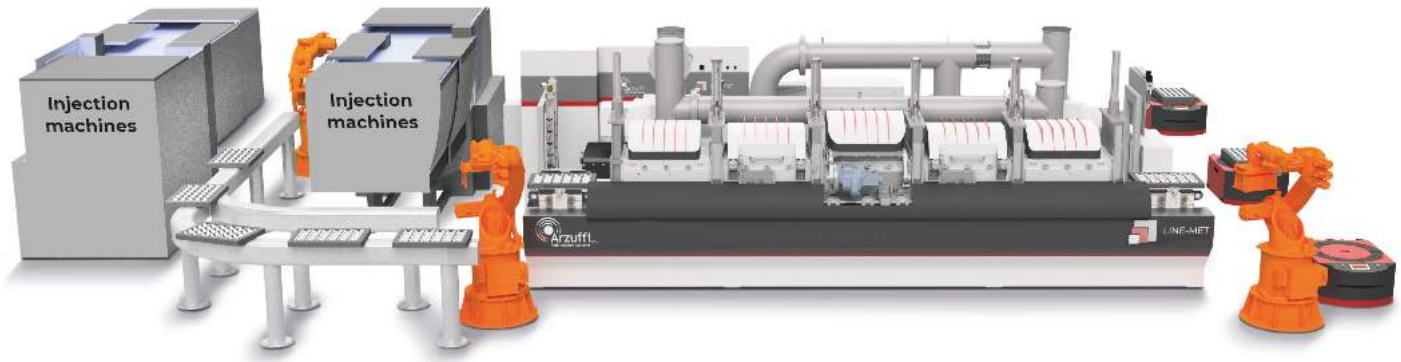
AHC (Arzuffi Hard Coating)
Surface tension modification for paintability

APPLICATIONS

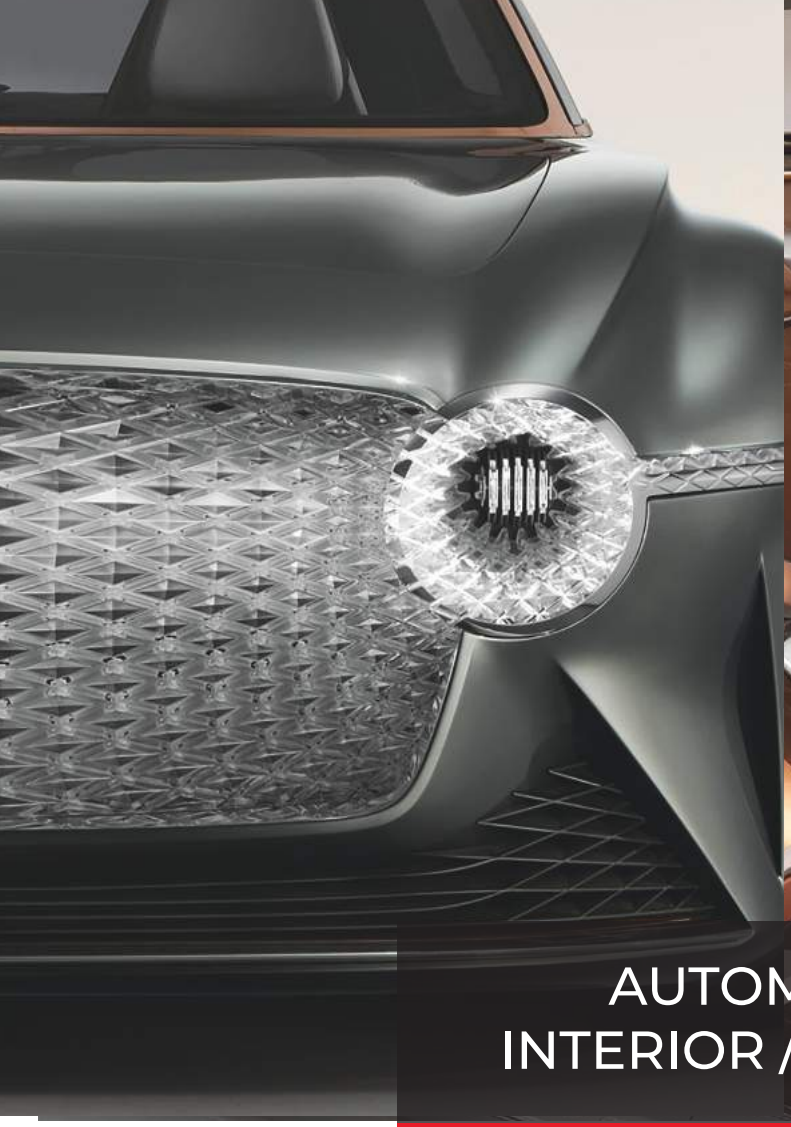
• AUTOMOTIVE LIGHTING • INTERIOR/EXTERIOR AUTOMOTIVE • GLASS •
• LIGHTING • COSMETICS • DECORATIVE • FURNITURE • CERAMIC •

AUTOMOTIVE LIGHTING

Fully automated in-line solution for
high productivity and high quality
at lower production cost.

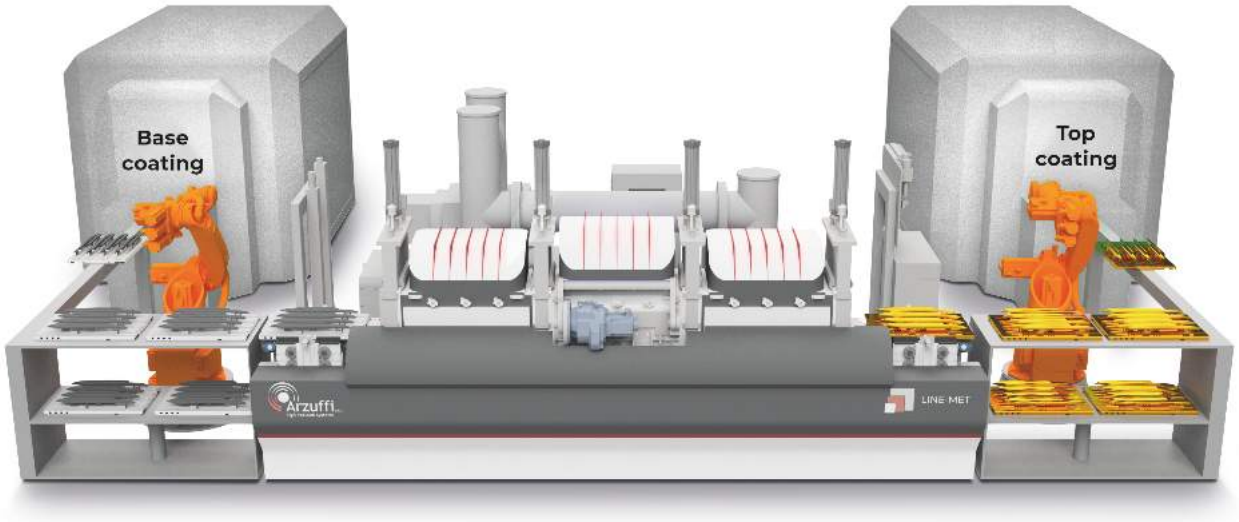


LINE-MET
Fully Automated Equipment



AUTOMOTIVE
INTERIOR / EXTERIOR

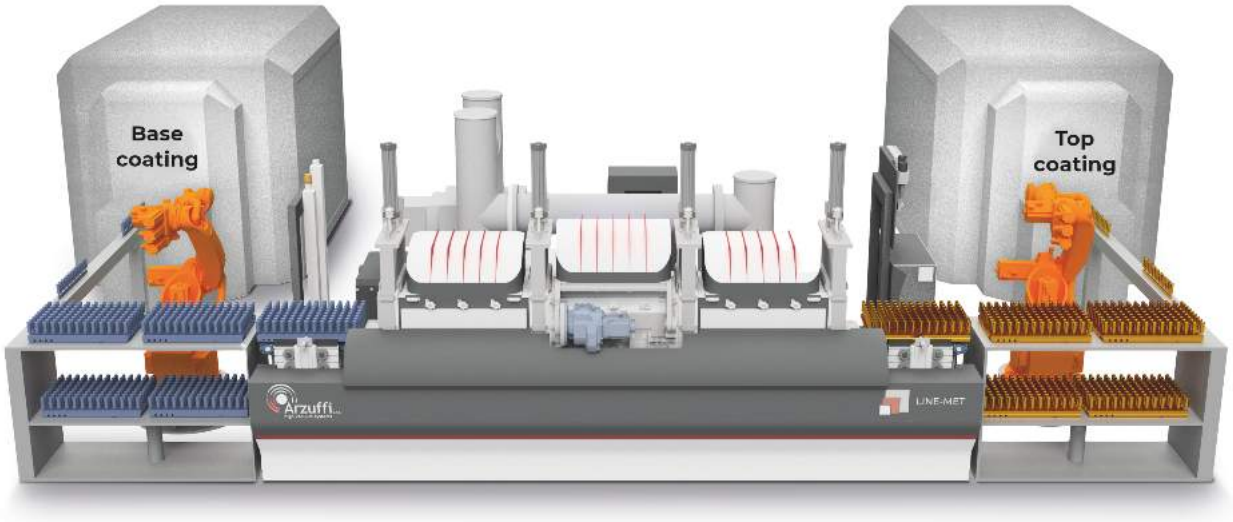
Ecofriendly technology with low environmental impact to replace the electroplating treatment.



LINE-MET
Fully Automated Equipment

COSMETIC INDUSTRY

Productivity is 2 to 4 times higher than solutions actually available on the market.



LINE-MET
Fully Automated Equipment

COMPANY

ARZUFFI is the worldwide leader in the metallization process and in the high vacuum coating systems especially for the automotive industry.
Our equipments reached a high level of specialization for the treatment of reflectors, bezels, rear lamps and automotive interior/exterior. Large experience in industrial and civil lighting, cosmetics, decorative, furniture, ceramic, glass, leather and textile.
